Discover the new family of Irizar seats: designed to help create a sense of well-being when entering the coach and leave a lasting impression on passengers at the end of the journey.

Take a journey inside, where you will discover the new Irizar Colour Collection which showcasing new trends and creating a fresh vision so that you feel at home, in a unique environment... the Irizar environment.

All seats in our catalogue are exclusive to Irizar and have been designed to meet the most demanding parameters in terms of safety, ergonomics, comfort and design.

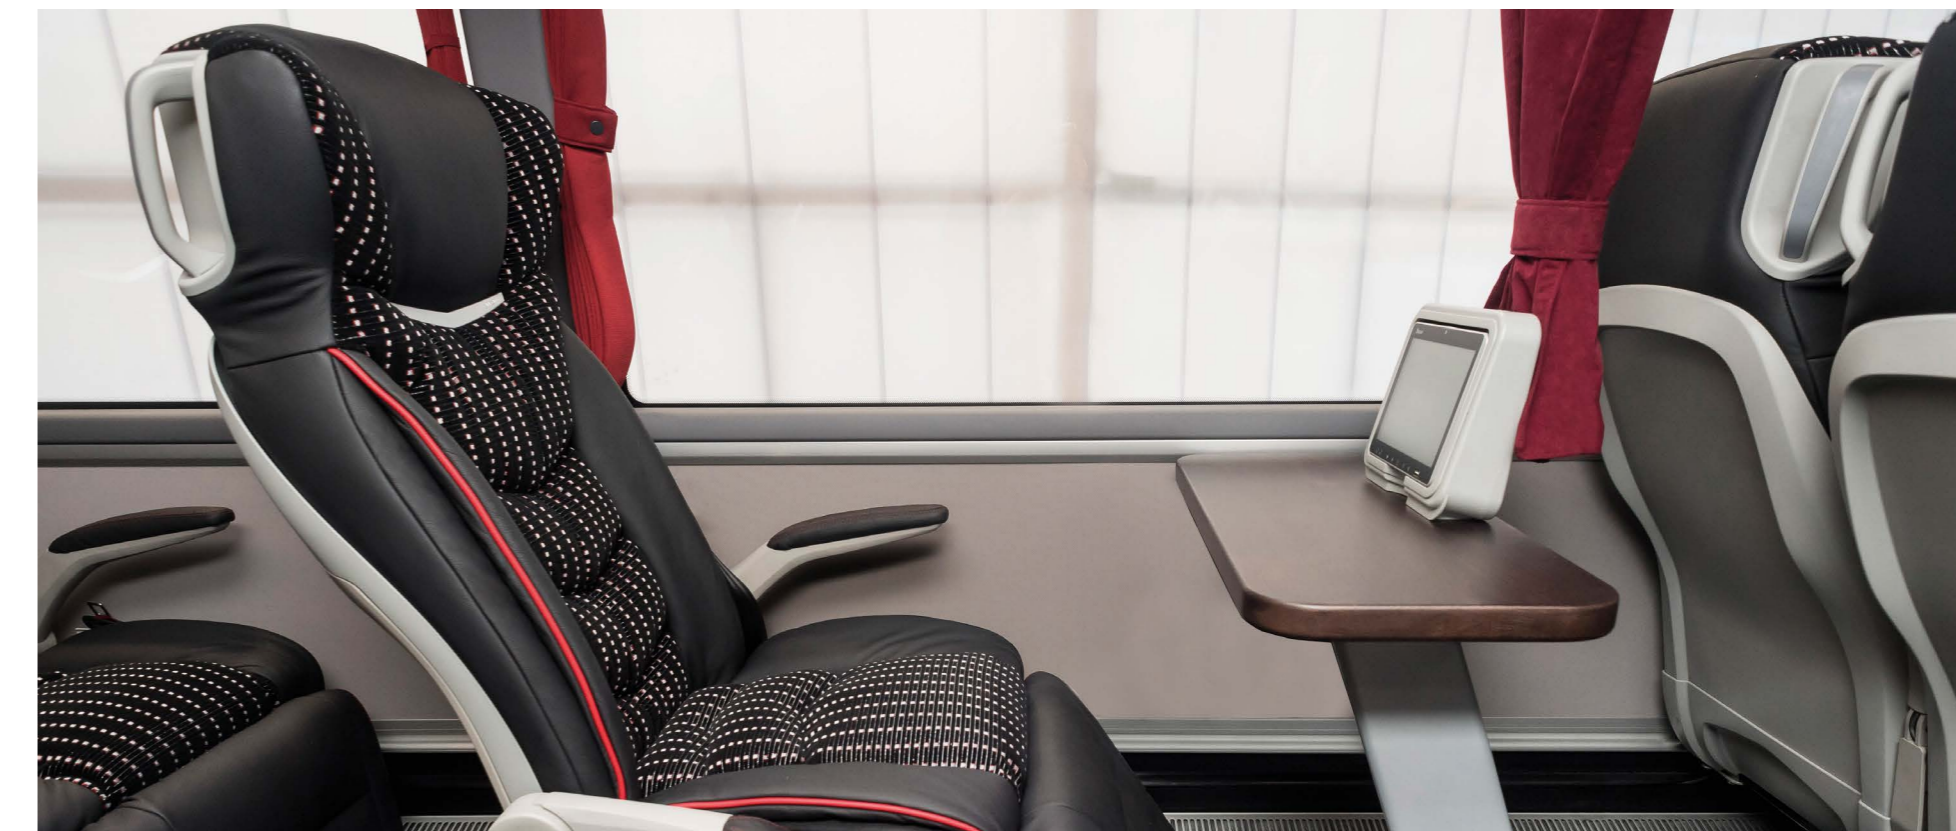

VIP configurations

For exquisite tastes

Relaxed, laid-back and free from stress, your body nestles into the enveloping arms of the seat, where the imagination, dreams and passion for travel find an essential retreat.

The luxury begins with a studied and detailed design which seeks maximum comfort thanks to the immaculate padding and an excellent finish in every single detail: seams, ergonomics and optionals.

Irizar's 2+1 or 1+1 seat configuration create an appearance of exclusivity; a luxury, customised, unique, safe and comfortable environment that responds to the most demanding needs and expectations.

The seats magnify the appeal of the vehicle's interior and can be upholstered in a wide selection of fabrics and leathers. What's more, they come with a wide range of equipment as standard along with various customisable options to help make each trip a more enjoyable experience, with a long list of entertainment possibilities on board: Wi-Fi system, USB and plug sockets, integrated monitors, individual sound, navigation systems... you decide.

Irizar offers maximum potential for the client to configure the coach and equipment options to their own design.

Irizar leads the market in offering our clients cutting-edge technologies adapted to coaches.

i8 seat

A symphony for the senses

Travelling First-Class becomes reality for long-distance passengers occupying these seats which are the starting point for a journey of supreme comfort.

This exclusive Irizar seat is offered in two new designs: one daring and avant-garde and the other a simpler and classic form. Both are available in combinations of new, carefully selected materials, including moquette, flatwoven fabrics, leather and/or synthetic leather.

Although the visual elegance of the seats cannot be ignored, their development has focused on other concepts such as comfort, functionality and adaptability. Designed in conjunction with one of the leading European companies in the sector, the seats are not only supremely comfortable, they also include height-adjustable three-point seatbelts, integrated entertainment screens, USB ports, tables, coat-hooks and handles integrated into the seat back... a whole range of possibilities to take care of the passenger and provide a unique experience that combines luxury and the Irizar personality.

i6plus seat

For those looking for that extra touch of comfort

When comfort and style going hand-in-hand, this is certain to result in a product that combines physical and emotional well-being. We invite medium and long-distance travelers to find out and to lose themselves in this cossetting seat.

In our desire to improve and to offer our passengers a better service, we wanted to go a step further by not only increasing the features of this seat which include, among others, lateral displacement and Isofix security systems, but also by expanding the upholstery range.

i6 seat

Versatility, robustness and reliability

Clean lines, a feeling of robustness and durability, hard-wearing and simple upholstery, boundless attention to detail... all are inherent characteristics of this seat, whose presence is integrated into the internal design of the coach.

The Irizar i6 seats have been exclusively designed for Irizar, with the aim of creating a pleasant, spacious environment with maximum comfort and well-being for passengers. It integrates with the interior so that each kilometre of the trip, especially over medium and long-distances, becomes a new experience.

The seats stand out due to their modern design, ergonomics, durability, accessibility and weight optimisation. What's more, they offer a wide range of customisable options.

The seats include folding armrests with a simple mechanism that does not overshadow their robust and reliable appearance.

i4 seat

Robust and practical for intercity routes

Simplicity and harmony of design provide functionality that combines strength and subtlety. Strong on the inside, and welcoming on the outside.

The Irizar i4 seats are robust and durable, with an optimum thickness to meet the requirements of the intercity segment, over short and medium distances.

These comfortable and practical seats are also ergonomic, spacious and very versatile, defined by a wide range of options that include fixed seats with simple mechanisms to reduce maintenance and breakage costs.

Driver's seat

Safety at the forefront

Taking the driver's seat and feeling safe and comfortable is a good start to a driver's journey. Carrying that safety and comfort through the rest of the journey is what differentiates us. That is why we have specified a pneumatic suspension seat with automatic weight regulation, designed to ensure safety, ergonomics and the comfort of drivers, no matter what shape they are, and so ensure that driving our vehicles is a pleasure.

The seats comply with the stringent R14 regulations and include three-point seatbelts, a headrest integrated into the back, IPS, pneumatic suspension with several manual or automatic adjustments, intelligent memory functions and rapid lowering, plus options including armrests, a swiveling function, heating, and more.

All these features, plus a wide choice of different moquette or leather upholstery options and the latest accessories, equipment and systems, make these new-generation driving seats the safest and most attractive on the market.

Isri 6860/875 NTS2 standard equipment

- Heating
- Ventilation
- Different upholstery finishes
- Bosch microphone with integrated Bluetooth

Guide seats

A smart and safe courier seat for each coach model

These seats enable couriers to travel in a commanding position with safety and comfort, but without sacrificing access space for passengers.

The articulated seat system has an anatomical, solid and functional design, can be fixed to the wall or shelf, and occupies minimal space.

Reclining and/or fixed, with an adjustable headrest, it offers the courier an ergonomic position, whether guiding or relaxing.

With optimal design, geometry and comfort, and with the option of synchronised movements of the cushion and self-raising armrests, the folding courier seat enables maximum space to be freed up for access to the coach steps when it's time to leave.

The courier seat is equipped with a retractable, three-point seat belt.

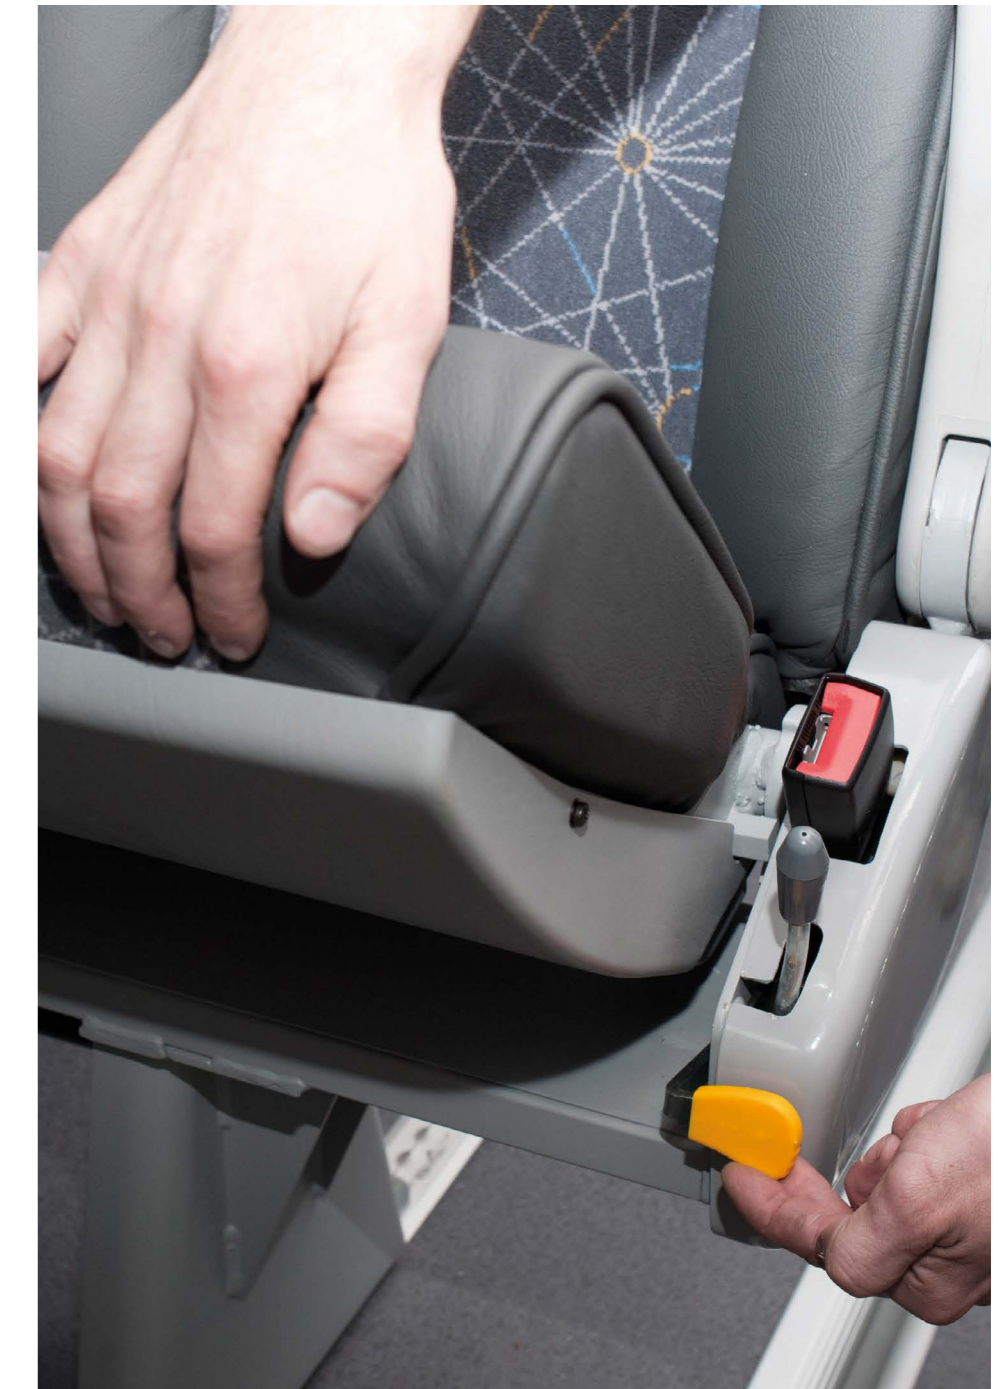

PMR Solutions

At Irizar, we think of the comfort and needs of all passengers and, of course, of those who need more space, such as persons with reduced mobility and parents with prams or pushchairs.

As such, we have incorporated the following systems into our coaches, which enable an increase in space with minimum effort:

- Quick anchoring system that enables seats to be removed and installed easily, creating the space necessary for a wheelchair.
- A forward and backward displacing seat system that, thanks to a simple mechanism and removing the cushions from the seats, enables the necessary space to be created for a wheelchair.
- Seat system with foldable cushions and sliding legs that creates the space for a wheelchair without having to remove anything from the coach.
